# WHY OPEN SPACE FORUM?

India stands at a rare moment. As the world struggles with climate stress, energy challenges and social anxiety, India keeps rising not merely as a market, but as a nation of aspirants. Yet growth, if it is not guided well, can become a burden before it becomes a legacy.

For India's progress to stay meaningful, two pillars need urgent strengthening Environment and Employment and Education makes both possible. This is where landscape architecture and open space design become decisive. Open spaces are no longer leftovers between buildings; they are climate, social, ecological and wellness infrastructure

## ENVIRONMENT

the challenge we must respond to.

## EMPLOYMENT

the opportunity we must create.

## EDUCATION

the force that makes both possible.

# WHAT IS OPEN SPACE FORUM

## India's First National Forum for the Open Space Economy

A national platform that brings together the entire field of landscape architecture and open space design professionals, makers, educators, institutions, policy makers, students, clients and industry leaders. Through conferences, exhibitions, dialogues, demonstrations and collaborations, OSF makes open space design a more visible and opportunity-rich sector across India.
